PROJECTS

MOVIE TICKET BOOKING WEB | [HTML, CSS, JavaScript](#)

05 2023

- Designed and developed a dynamic and user-friendly movie ticket web application using programming languages or technologies HTML, CSS, JavaScript..

Personal web | [HTML, CSS](#)

06 2023

- Through my personal website, I provide visitors with valuable insights into my skills, projects, and accomplishments. It features a well-organized portfolio section where I highlight my most significant works and projects, demonstrating my ability to tackle challenges and deliver exceptional results. By presenting my portfolio, I aim to illustrate my dedication to excellence and innovation in my field.
- [Download](#)

YOUTUBE CLONE | [HTML, CSS, JavaScript](#)

01 2023

- YouTubeClone is a web application that emulates the core features and functionalities of the popular video-sharing platform, YouTube. Leveraging my expertise in HTML, CSS, and JavaScript, I crafted an intuitive and visually appealing user interface that allows users to seamlessly navigate the platform.

INTERNSHIP

TechStar Groups

05 2023 – 06 2023

Web Developer

Hyderabad, India

- As an Intern, I utilized my proficiency in HTML, CSS, and JavaScript to create visually engaging and responsive user interfaces. Implementing cutting-edge technologies and adhering to industry best practices, I ensured seamless user experiences across different devices and browsers.
